# INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION

To the Board of Trustees Louisiana Assessors' Retirement Fund

We have audited the statements of plan net assets of the Louisiana Assessors' Retirement Fund as of September 30, 2005 and 2004, and the related statements of changes in plan assets for the years then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net assets of the Louisiana Assessors' Retirement Fund as of September 30, 2005 and 2004, and the changes in plan net assets for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated November 28, 2005, on our consideration of the Louisiana Assessors' Retirement Fund's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

We have also previously audited, in accordance with generally accepted auditing standards, the financial statements of Louisiana Assessors' Retirement Fund as of September 30, 2004, 2003, 2002, and 2001 and we expressed an unqualified opinion on those statements. The years ended September 30, 2000 and prior were audited by other auditors, whose reports were unqualified. In our opinion, the information set forth in the required supplementary information for the years ended September 30, 2005, 2004, 2003, 2002 and 2001, appearing on pages 24 to 26, is fairly stated, in all material respects, in relation to the financial statements from which it has been derived. The years ended September 30, 2000 and prior was subjected to the auditing procedures applied in the audits of the basic financial statements by other auditors, whose reports on such information stated that is was fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Our audit was conducted for the purposes of forming an opinion on the financial statements taken as a whole. The accompanying supplemental information schedules on pages 27 and 28 are presented for purposes of additional analysis and are not a required part of the financial statements of the Louisiana Assessors' Retirement Fund. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

PROVOST, SALTER, HARPER & ALFORD, LLC

Propost, Salter, Harper & Altora, LLC

November 28, 2005

The following discussion and analysis of the Louisiana Assessors Retirement Fund ("Retirement Fund") for the year ended September 30, 2005 highlights relevant aspects of the basic financial statements and provides an analytical overview of the Retirement System's financial activities.

#### Financial Highlights

The net assets held in trust for pension benefits increased by \$18.8 million, or 14.89% compared to an increase of \$15.0 million or 13.4% in the prior year. The increase was almost entirely due to the continued upturn in the equity markets.

The unfunded actuarial accrued liability increased from \$35.5 million to \$35.8 million.

The Retirement Fund had net investment income \$17.2 million, compared to net investment income of \$11.4 million in 2004.

The amount of Annuity and DROP benefit payments increased from \$8.9 million to \$10.9 million.

#### Overview of the Financial Statements

Management's Discussion and Analysis is intended to serve as an introduction to the Retirement Fund's basic financial statements, together with the related notes to the financial statements, required supplementary information, and the supporting schedules, all of which are described below:

<u>Statement of Plan Net Assets</u> – This statement reports the Retirement Fund's assets, liabilities, and resultant net assets held in trust for pension benefits. This statement should be read with the understanding that it presents the Retirement Fund's financial position on September 30, 2005.

Statement of Changes in Plan Net Assets – This statement reports the results of operations during the fiscal year, categorically presenting the additions to and deductions from plan net assets. The net increase in plan assets on this statement supports the change in net assets held in trust for pension benefits on the Statement of Plan Net Assets.

Notes to the Financial Statements – The financial statement notes provide additional information that is essential to a complete understanding of the data set forth in the financial statements. They are considered an integral part of the financial statements. A description of the information provided in the notes follows:

Note 1 (Plan Description) Provide a general description of the Retirement Fund. Information is included regarding the Board of Trustees, plan membership, a

description of basic retirement benefits, and the Deferred Retirement Option Plan (DROP).

Note 2 (Summary of Significant Accounting Policies) Provides information about the accounting methods and policies used in determining amounts shown on the financial statements. Information relative to the basis of accounting, the determination of estimates, Fund investments and properties is included in this note.

Note 3 (Contributions and Reserves) Describes contributions to the Retirement Fund and the Reserve Funds, DROP, Annuity Savings, Pension Accumulation and Annuity Reserve.

Note 4 (Actuarial Cost Method) Defines the cost methods used to calculate funding requirements of the Retirement Fund.

Note 5 (Required Supplementary Schedule Information) The required supplementary information consists of two schedules and related notes. These schedules show the funding progress and employer contribution data for the Retirement Fund. The related notes disclose key actuarial assumptions and methods used in the schedules.

Note 6 (Cash and Cash Equivalents) Describes cash and cash equivalents including authority and policies, and additional information about cash and pledged securities.

Note 7 (Investments) Describes Investments, including authority and policies.

Note 8 (Furniture and Software) Details the cost of the Retirement Fund's fixed assets as well as related depreciation expense and accumulated depreciation.

Note 9 (Related Party Transactions) Provides an explanation of the shared expenses, the Retirement Fund reimburses to the Louisiana Assessors' Association.

Note 10 (Risk Management) Provides a brief description of the Retirement Fund's exposure to various risks, and the level of related insurance coverage.

Note 11 (Contingencies) Details various situations where the Fund is either in pursuit of or being pursued for benefits. Due to the uncertainty of each situation no liabilities or receivables have been recorded on the financial statements.

Note 12 (Hurricanes Katrina and Rita) Describes management's uncertainty as to the effects of these disasters on contributions to the plan as well as the valuation of its investments.

<u>Supporting Schedules</u> – These schedules include information on administrative expenses, investments, board compensation and changes in reserve balances.

## Louisiana Assessors' Retirement Fund's Financial Analysis

The Retirement Fund is a cost sharing, multiple-employer, qualified defined benefit pension plan covering assessors and their deputies employed by any parish of the State of Louisiana, under the provisions of Louisiana Revised Statutes 11:1401 through 1494, effective July 26, 1950. The plan is a qualified plan as defined by the Internal Revenue Code, effective January 1, 1998. Retirement benefits are funded through member contributions, employer contributions, and earnings on investments. Total net assets held in trust for pension benefits at September 30, 2005 amount to \$146.1 million; which was an increase of \$18.8 million, or 14.8 percent from the \$127.3 million held at September 30, 2004.

#### STATEMENT OF PLAN NET ASSETS

	2005	 2004			
Cash and investments \$	145,515	\$ 126,604			
Receivables	574	606			
Capital assets	22	27			
Notes receivable	92	95			
Total assets	146,203	127,333			
Liabilities	61	56			
Plan net assets\$	146,142	\$ 127,277			

Additions to Plan Net Assets – Additions to the Retirement System's net assets held in trust for pension benefits include contributions from employers and members, revenue sharing, and investment income. The Retirement Fund recognized a current year net investment income of \$17.2 million compared to \$11.4 million in the prior year.

Additions to Net Assets	 2005	 2004	 Difference	Percentage Change
Employer contributions	\$ 4,200,661	\$ 4,026,129	\$ 174,532	4.2%
Employee contributions	2,344,437	2,329,543	14,894	0.6%
Investment income (loss)	17,183,608	11,428,975	5,754,633	33.5%
Transfers in	302,260	186,675	115,585	38.2%
State revenue sharing	348,662	355,855	(7,193)	-2.1%
All parishes pension fund	 6,476,653	 6,070,246	 406,407	6.3%
Total additions	\$ 30,856,281	\$ 24,397,423	\$ 6,458,858	20.9%

<u>Deductions from Plan Net Assets</u> – Deductions from the Retirement Fund's net assets held in trust for pension benefits are comprised primarily of pensions paid Retirement Fund retirees, survivors, and beneficiaries. Also included as deductions are administrative expenses and refunds of contributions. Pensions paid to retirees, survivors, and beneficiaries amounted to \$11 million for 2005, which represented an increase of \$2.1 million from the \$8.9 million paid in 2004. The increase was due to an increase in normal monthly payments to pensioners, as well as an increase in DROP fund distributions. The administrative expenses represented only 3% of total plan deductions, which is consistent with the prior year's 3%.

Deductions from Plan Net Assets		2005	2004	]	Difference	Percentage Change
Benefits paid						
(Annuity & DROP)	\$	10,959,936	\$ 8,900,511	\$	2,059,425	18.8%
Refunds & transfers		710,972	112,980		597,992	84.1%
Administrative expenses		320,253	 313,163		7,090	2.2%
Total deductions	_\$_	11,991,161	\$ 9,326,654	\$	2,664,507	22.2%

<u>Investments</u> — Total investments amounted to \$139.8 million at September 30, 2005 as compared to \$124.6 million at September 30, 2004, which represented an increase of \$15.2 million or 10.9%. The Retirement Fund's market return was 13.8%, the benchmark for the overall portfolio returned 13.6% and the average peer-group for Funds with a similar asset allocation 13.1% for the year.

When making comparisons from year to year, it is important to be aware that other factors may affect the change in investments, particularly the changes between investments categories and types. Probably the most notable of the factors is that of investment re-balancing, which is initiated when a certain predetermined target allocation percentage is reached. Investment allocations that have become over-allocated are sold in part and distributed for the purchase of investment allocations that have become under-allocated. It is also important to note that the investment portfolio is not stagnant, but is traded in part each business day. Therefore, the reader should be cautious about drawing conclusions as to how and why the portfolio increased or decreased in value. It is perhaps best to refer to the following table to conclude how the Retirement Fund's investments change overall.

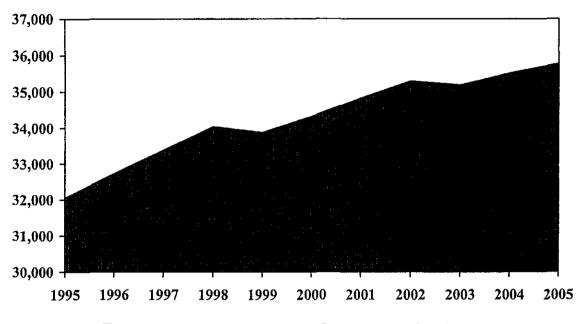

Investments at Fair Value		2005	2004	 Difference	Percentage Change
US Government securities	\$	4,549,123	\$ 3,841,330	\$ 707,793	15.6%
Corporate bonds		7,670,405	8,251,270	(580,865)	-7.6%
Foreign government securities		256,734	265,624	(8,890)	-3.5%
Bond mutual funds		33,331,791	31,099,521	2,232,270	6.7%
Stock mutual funds	_	93,973,654	 81,124,595	12,849,059	13.7%
Total investments	\$	139,781,707	\$ 124,582,340	\$ 15,199,367	10.9%

## **Funding Status**

Of primary concern to most pension plan participants is the amount of money available to pay benefits. An actuarial valuation of assets and liabilities is performed annually.

An indicator of funding status is the ratio of the actuarial present value of the assets to the actuarial present value of future benefits when using the entry age normal method. An increase in this percentage over time usually indicates a plan is in financial decline. Changes in the financial markets can significantly impact the actuarial value of assets, which will impact the funded ratio. In addition to changes in the financial markets, the collection of actuarially required contributions has a significant impact on the funding status of the system. The chart below indicates the level of the unfunded accrued liability over time. See the actuarial section for more information regarding the funded status.

# **Unfunded Accrued Liability**

■ Unfunded Accrued Liability (Includes Due and Unpaid Contributions)

#### Requests for Information

This Annual Financial Report is designed to provide a general overview of the Louisiana Assessors' Retirement Fund's finances for interested parties. Questions concerning any of the information provided herein, or requests for additional financial information should be addressed to the Louisiana Assessors' Retirement Fund, PO Box 14699, Baton Rouge, Louisiana 70898.

Notes to Financial Statements

September 30, 2005

## 1. Description of Plan

The following brief description of the Assessors' Retirement Fund Pension Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General. The Plan is a cost sharing, multiple-employer, qualified governmental defined benefit pension plan covering assessors and their deputies employed by any parish of the State of Louisiana, under the provisions of Louisiana Revised Statutes 11:1401 through 1494, effective July 26, 1950. The plan is a qualified plan as defined by the Internal Revenue Code section 401(a), effective January 1, 1998. Membership in the Louisiana Assessors' Retirement Fund is a condition of employment for Assessors and their full time employees.

<u>Reporting Entity.</u> The Louisiana Assessors' Retirement Fund is not a component unit of the State of Louisiana consolidated Annual Financial report. The accompanying financial statements reflect the activity of the Retirement Fund.

Under Governmental Accounting Standards Board (GASB) Statement No, 14, *The Financial Reporting Entity* (GASB) 14, the definition of a reporting entity is based primarily on the concept of financial accountability. In determining its component unit status, the administrators considered the following:

- The plan exists for the benefit of current and former assessors who are members of the Retirement Fund;
- Eight of the fifteen Board members are elected by the employees who participate in the Fund, and
- The Fund is funded by the investment of contributions from members and member employees who are obligated to make contributions to the Fund based upon actuarial valuations.

The Louisiana Assessors' Retirement Fund has no component units as defined under GASB 14.

Notes to Financial Statements, Continued

September 30, 2005

The Fund is administered by a board of trustees made up of fifteen members, the president, vice president, and secretary-treasurer of the Louisiana Assessors' Association and eight regular member representatives who shall be elected for a term of three years from the Association districts. Two of the members shall be retiree representatives nominated by the board and elected by the retirees and two members shall be assessor employee representatives nominated by the board and elected by the employees.

**Plan Membership.** Employer and employee membership data at September 30, 2005 and 2004 is as follows:

Employer Members	2005	2004
Louisiana Assessors' offices	71	71
Louisiana Assessors' Association	1	1
	72	72
Employee Members  Current retirees and beneficiaries	426	418
Terminated vested participants	22	24
Terminated due to refund	23	18
Active plan participants	729	718
	1,200	1,178

#### Plan Benefits.

<u>Pension Benefits</u>. Employees with 30 or more years of service or employees who have 12 years of service who have attained age 55 are entitled to annual pension benefits equal to  $3^{1}/_{3}$ % of their average final compensation based on the 36 consecutive months of highest pay multiplied by their total years of service, not to exceed 100% of final compensation. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity.

If employees terminate before rendering 12 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to their employer's contributions. Benefits are payable over the employees' lives in the form of a monthly annuity. Employees may elect an unreduced benefit or any of four options at retirement.

## Notes to Financial Statements, Continued

September 30, 2005

- 1. At death, their beneficiary will receive a lump sum payment based on the present value of the employee's annuity account balance.
- 2. At death, their beneficiary will receive a life annuity based on their reduced retirement allowance.
- 3. At death, their beneficiary will receive a life annuity equal to ½ of their reduced retirement allowance.
- 4. Any other benefit certified by the actuary and approved by the Board of Trustees that will be equivalent in value to their retirement allowance.

#### Death Benefits.

- 1. If a member of this fund dies in service with less than twelve years of creditable service, and leaves a surviving spouse, his accumulated contributions shall be paid to the surviving spouse.
- 2. If a member dies and has twelve or more years of creditable service and is not eligible for retirement, the surviving spouse shall receive an automatic optional benefit which is equal to the joint and survivorship amounts provided in Option 2 as provided in R.S. 11:1423, which shall cease upon a subsequent remarriage, or a refund of the member's accumulated contributions, whichever the spouse elects to receive.
- 3. If a member dies and is eligible for retirement, the surviving spouse shall receive an automatic optional benefit which is equal to the Option 2 benefits provided for in R.S. 11:1423, which shall not terminate upon a subsequent remarriage.
- 4. Benefits set forth in Number 2 shall cease upon remarriage and shall resume upon a subsequent divorce or death of a new spouse. The spouse shall be entitled to receive a monthly benefit equal to the amount being received prior to remarriage.

<u>Disability Benefits.</u> If an eligible member is officially certified as disabled by the State Medical Disability Board, he shall receive the lesser of (1) or (2) as set forth below:

1. A sum equal to three and one-third percent of final three year average compensation multiplied by the number of years of service or 45% of final three-year average compensation, whichever is greater; or

Notes to Financial Statements, Continued

September 30, 2005

2. Three and one-third percent of highest three-year compensation multiplied by years of service, to the earliest normal retirement age.

Upon approval for disability benefits, the member shall exercise an optional retirement allowance as provided in R.S. 11:1423 and no change in the option selected shall be permitted after it has been filed with the board. The retirement option factors shall be the same as those utilized for regular retirement based on the age of the retiree and that of the spouse, had the retiree continued in active service until the earliest normal retirement date.

<u>Deferred Retirement Option Plan.</u> Upon becoming eligible for a normal retirement allowance, a member may elect to participate in the deferred retirement option plan for up to 36 months. The monthly retirement benefit that would have been payable is paid into the deferred retirement option plan account.

Upon termination of employment, a participant in the program shall receive, at his option, a lump-sum payment from the account or an annuity based on the deferred retirement option plan account balance in addition to his regular retirement benefit.

If employment is not terminated at the end of the 36 months, the participant resumes active contributing membership in the system.

No payments may be made from the deferred retirement option plan account until the participant retires.

During the year ended September 30, 2004, \$1,092,034 was paid from the deferred retirement option accounts on behalf of 17 participants. During the year ended September 30, 2005, \$2,523,870 was paid from the deferred retirement option accounts on behalf of 21 participants.

<u>Excess Benefit Plan.</u> Under the provisions of this excess benefit plan a member may receive a benefit equal to the amount by which the member's monthly benefit from the fund has been reduced because of the limitations of Section 415 of the Internal Revenue Code.

Notes to Financial Statements, Continued

September 30, 2005

## 2. Summary of Significant Accounting and Financial Reporting Policies

Governmental accounting principles and practices are promulgated and established by the Governmental Accounting Standards Board (GASB). The GASB has issued a Codification of Governmental Accounting and Financial Reporting Standards. This codification and subsequent GASB pronouncements are recognized as generally accepted accounting principles for state and local governments. The accompanying financial statements have been prepared in accordance with such pronouncements.

In addition, these financial statements include the implementation of GASB Number 40, *Deposit and Investment Risk Disclosures*. This new standard provides for inclusion of a disclosure of exposure to credit risk, custodial credit risk, concentration of credit risk, or foreign currency risk.

<u>Basis of Accounting.</u> The Fund's financial statements are prepared using the accrual basis of accounting. Contributions are recognized in the period in which the employee is compensated for services. Benefits and refunds are recognized when due and payable.

<u>Cash and Cash Equivalents</u>. Cash and cash equivalents, includes demand deposits in banks and temporary cash investments in money market accounts with the trust department of the investment custodian bank. The money market balances consist of government backed pooled funds.

<u>Valuation of Investments</u>. All investments are fixed-income securities, common stock or mutual funds and are reported at fair market value based on quoted market prices.

<u>Investment Income.</u> Interest and dividend income is recognized on the accrual basis as earned.

Gains and losses on exchanges of fixed-income securities and common stocks are recognized using the trade date basis.

Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make significant estimates and assumptions that effect the reported amounts and plan net assets at the date of the financial statements and the actuarial information included in the required supplementary information as of the benefit information date, the changes in plan net assets during the reporting period and, when applicable, disclosures of the contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes to Financial Statements, Continued

September 30, 2005

#### 3. Contributions and Reserves

<u>Contributions</u>. Contributions for all members are established by statute at 8.0% of earnable compensation. The contributions are deducted from the member's salary and remitted by the participating agency.

Administrative costs of the retirement fund are financed through employer contributions. According to state statute, contributions for all employers are actuarially determined each year. Employer contributions were 14.5% of member's earnings for the year ended September 30, 2005 and 14% of member's earnings for the year ended September 30, 2004. The Fund also receives ¼ of 1% of the property taxes collected in each parish of the state. This income is used as additional employer contributions. Orleans Parish has not paid its contribution for several years and the Fund has sued to collect the amounts due. The case is in the courts and the outcome is unknown at this time.

<u>Reserves</u>. Use of the term "reserve" by the retirement Fund indicates that a portion of the fund balance is legally restricted for a specific future use. The nature and purpose of these reserves are explained below:

<u>Expense.</u> The Expense Fund Reserve provides for general and administrative expenses of the Fund and those expenses not funded through other specific legislative appropriations. Funding consists of transfers from the retirement funds and is made as needed.

<u>Annuity Savings</u>. The Annuity Savings is credited with contributions made by members of the Fund. When a member terminates his service, or upon his death, before qualifying for a benefit, the refund of his contributions is made from this reserve. If a member dies and there is a survivor who is eligible for a benefit, the amount of the member's accumulated contributions is transferred from the Annuity Savings to the Annuity Reserve to provide part of the benefits. The Annuity Savings as of September 30, 2005 and 2004 is \$17,272,842 and \$16,091,217 respectively. The Annuity Savings is fully funded.

<u>Pension Accumulation Reserve.</u> The Pension Accumulation Reserve consists of contributions paid by employers, interest earned on investments and any other income not covered by other accounts. This reserve account is charged annually with an amount, determined by the actuary, to be transferred to the Annuity Reserve to fund retirement benefits for existing recipients. It is also relieved when expenditures are not covered by other accounts. The Pension Accumulation Reserve as of September 30, 2005 and 2004 is \$47,487,494 and \$37,706,805 respectively. Funded percentages are 67.72% for 2005 and 59.51% for 2004.

Notes to Financial Statements, Continued

September 30, 2005

Annuity Reserve. The Annuity Reserve consists of the reserves for all pensions, excluding cost-of-living increases, granted to retired members and is the reserve account from which such pensions and annuities are paid. Survivors of deceased beneficiaries also receive benefits from this reserve account. The Annuity Reserve as of September 30, 2005 and 2004 is \$74,822,054 and \$66,221,465 respectively. The Annuity Reserve is fully funded.

<u>Deferred Retirement Option Account.</u> The Deferred Retirement Option Account consists of the reserves for all members who, upon retirement eligibility, elect to deposit into this account an amount equal to the member's monthly benefit if he had retired. A member can only participate in the program for three years, and upon termination may receive his benefits in a lump sum payment or by a true annuity. The deferred retirement option as of September 30, 2005 and 2004 is \$6,558,873 \$7,256,657 respectively. The Deferred Retirement Option account is fully funded.

#### 4. Actuarial Cost Method

The "Frozen Attained Age Normal" cost method was used to calculate the funding requirements of the Fund. Funding of pension plans under this method consists of two components. The first of these components is the Employer Normal Cost of the plan. In addition, amortization payments on the Fund's unfunded liability must be made. The actuarial present value of future normal cost is called the actuarial accrued liability. Act 81 of the 1988 legislative session requires that the unfunded accrued liability be amortized over a forty-year period beginning on July 1, 1989 with payments increasing at 3.5% per year.

#### 5. Required Supplementary Schedule Information

Information in the Required Supplementary Schedules is designed to provide information about the System's progress made in accumulating sufficient assets to pay benefits and is presented on pages 24-26.

Notes to Financial Statements, Continued

September 30, 2005

#### 6. Cash and Cash Equivalents

At September 30, 2005 and 2004 the fund has cash and cash equivalents (book balances) consisting of the following:

	2005	2004
Demand deposit	\$ 12,843	\$ 317
Bank trust department	2,111,773	657
Repurchase agreements	2,596,717	1,034,707
Louisiana Asset Management Pool (LAMP)	1,011,706	986,486
	\$ 5,733,039	\$ 2,022,167

These deposits are stated at cost, which approximates market. Under State law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledge securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At September 30, 2005, the fund has \$5,733,342 in deposits (collected bank balances). These deposits are secured from risk by \$100,000 of federal deposit insurance and \$4,708,490 of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3).

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, R.S. 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Fund that the fiscal agent has failed to pay deposited funds upon demand.

In accordance with GASB Codification Section I50.126, the investment in LAMP at September 30, 2005 (\$1,011,706) is not categorized in the three risk categories provided by GASB Codification Section I50.125 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form.

Notes to Financial Statements, Continued

September 30, 2005

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities that have contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA – R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchased agreements collateralized by those securities.

Effective August 1, 2001, LAMPs investment guidelines were amended to permit the investment in government-only money market funds. In its 2001 Regular Session, the Louisiana Legislature (Senate Bill No. 512, Act 701) enacted LSA-R.S. 33:2955(A)(1)(h) which allows all municipalities, parishes, school boards, and any other political subdivisions of the State to invest in "Investment grade (A-1/P-1) commercial paper of domestic United States corporations." Effective October 1, 2001, LAMPs Investment Guidelines were amended to allow the limited investment in A-1 or A-1+ commercial paper.

The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. The investments in LAMP are stated are fair value based on quoted market rates. The fair value is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the value of the pool shares.

LAMP, Inc. is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

#### 7. Investments

Statutes authorize the Fund to invest in a prudent manner and limit investments in equities or index funds to 65% of the total portfolio. All of the Plan's investments are insured or registered and held by a bank-administered trust fund or a Securities and Exchange Commission registered broker-dealer (GASB category 1). Investments at cost and fair value as determined by quoted market prices at September 30, 2005 and 2004 were:

	2005			2004			
	 Amortized Cost		Fair Values		Amortized Cost		Fair Values
U.S. Government Securities Corporate bonds Foreign government securities	\$ 4,297,693 8,141,095 256,734	\$	4,549,123 7,670,405 256,734	\$	3,811,373 7,997,056 265,624	\$	3,841,330 8,251,270 265,624
Comingled bond index funds Stock index funds	32,957,515 72,712,732		33,331,791 93,973,654		24,709,083 80,050,055		24,859,814 87,364,302
	 118,365,769	<u>\$</u>	139,781,707	\$	116,833,191	\$	124,582,340

Interest rate risk. Interest rate risk is the risk that changes in investment rates will adversely affect the fair value of an investment. The risk is applicable to debt investments with fair values that are sensitive to changes in interest rates. One indicator of the measure of interest rate risk is the dispersion of maturity dates for debt instruments.

The Fund's investments in US Government Securities, corporate bonds, and foreign government securities have the following maturities:

	Total Fair	L	ess	Years		 	
	Value	tha	ın 1	1-5	5-7	 7-10	10+
U.S.					 		
obligations	\$ 4,549,123	\$	_	\$ 15,652	\$ -	\$ 284,467	\$ 4,249,004
Corporate bonds	7,670,405		-	1,761,933	2,983,057	2,016,152	909,263
Foreign							
securities	 256,734				 	 	 256,734
	\$ 12,476,262	\$		\$ 1,777,585	\$ 2,983,057	\$ 2,300,619	\$ 5,415,001

#### Notes to Financial Statements, Continued

September 30, 2005

Concentrations of credit risk. Investment policy generally does not allow for an investment in one issuer that is in excess of five percent of total investments. The Assessors' Retirement Fund has concentrations of investments in U.S. government and agency securities as well as bonds and stocks of U.S. corporations. The value and collectibility of these investments is dependent on the normal market conditions that impact these types of investments as well as the continued existence and solvency of those entities.

Credit risk. As of September 30, 2005 the Assessor's Retirement Fund held investments in bond index funds, foreign government securities, and corporate bonds with the following ratings as determined by Moody's Investors Service:

			M	larket Value at
	Security	Rating	Sep	tember 30, 2005
Corporate Bonds:		A1	S	512,127

## 9. Related Party Transactions

The Fund shares an office building, equipment and other office expenses with the Louisiana Assessors' Association and Insurance Fund, two related parties. Most of the expenses, including the salaries of employees of all three funds, are paid out of the Association. The Fund reimbursed the Association for shared expenses for the years ended September 30, 2005 and 2004 in the amount of \$102,000.

# 10. Risk Management

The Assessors' Retirement Fund is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Fund carries insurance through the State of Louisiana, Office of Risk Management at levels which management believes are adequate to protect the Fund. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years.

#### 11. Contingencies

As explained in Note 3, the Fund is involved in litigation with Orleans Parish relative to contributions due to the Fund. The outcome of the suit is unknown at this time.

At September 30, 2005, there was another suit pending against the Fund. Although the outcome is not presently determinable, in the opinion of counsel, the resolution of the matter will not have a material adverse effect on the financial position of the Fund.

#### 12. Hurricanes Katrina and Rita

The State of Louisiana has been adversely affected by Hurricanes Katrina and Rita which occurred on August 29, 2005 and September 24, 2005 respectively. Management has not fully assessed the affect of these events on employer and employee contributions as well as on the valuation of its investments.

# REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees
Louisiana Assessors' Retirement Fund

We have audited the financial statements of the Louisiana Assessors' Retirement Fund, State of Louisiana, as of and for the years ended September 30, 2005 and 2004 and have issued our report thereon dated November 28, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Compliance

As part of obtaining reasonable assurance about whether the Louisiana Assessors' Retirement Fund, State of Louisiana's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Louisiana Assessors' Retirement Fund, State of Louisiana's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of the Audit Committee, the Board of Trustees, management of the Louisiana Assessors' Retirement Fund and the State of Louisiana Legislative Auditors' office and is not intended to be and should not be used by anyone other than those specified parties. Under Louisiana Revised Statutes 24:513, this report is distributed by the Legislative Auditor as a public document.

PROVOST, SALTER, HARPER & ALFORD, LLC

Provost, Salter, Harper & Allord, LLC.

Comment on Prior Year's Findings

Year Ended September 30, 2005

There are no prior year audit findings for which the Louisiana Assessors' Retirement Fund has not implemented the corrective action recommended.
